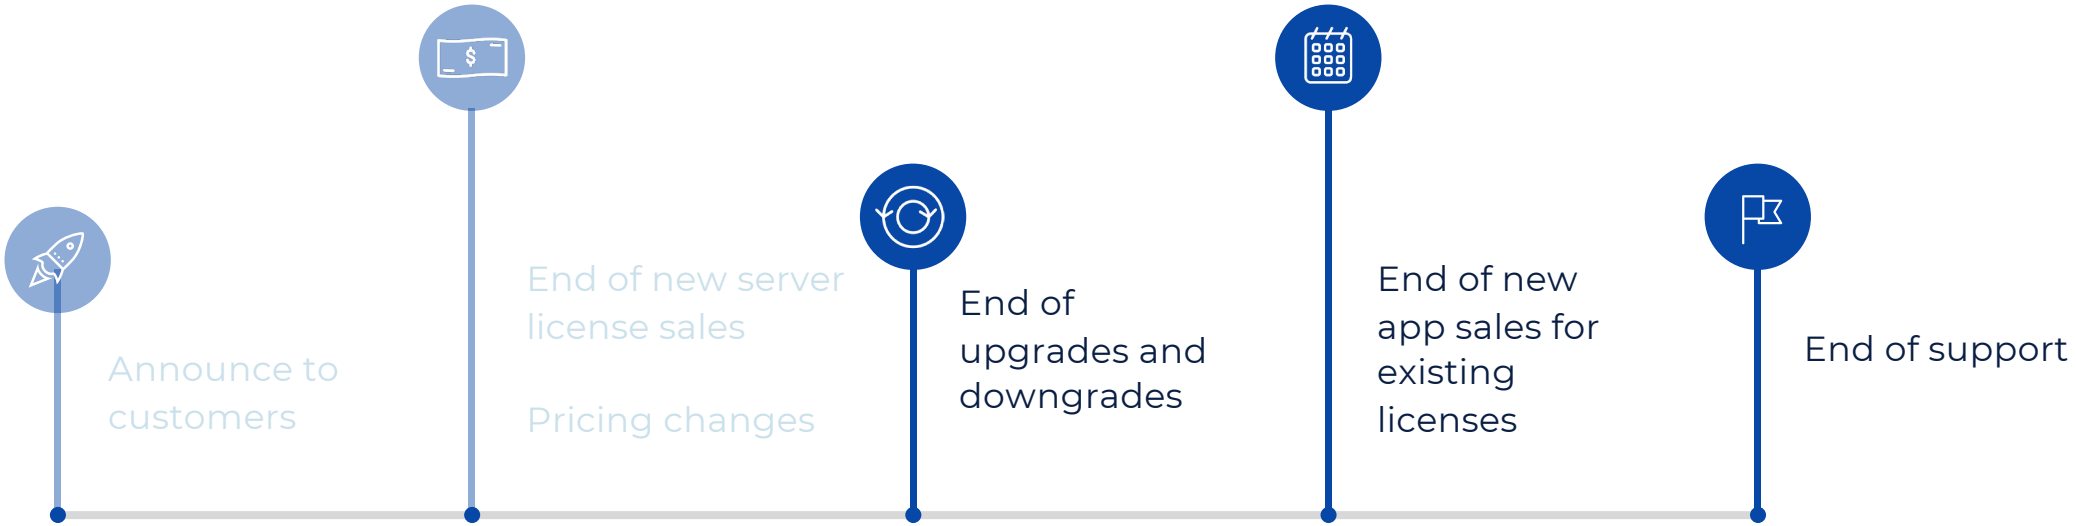
Server Timeline



October 16, 2020

Changes announced to server and Data Center customers.

Recommend learning about change and assessing impact.

February 2, 2021

No more quoting for a new server product or app.

We will honor valid quotes for licenses purchased after this date.

New prices for server and Data Center will go into effect.

February 2, 2022

No longer able to upgrade or downgrade user tiers for your server products or apps

February 2, 2023

No longer able to purchase new apps for your existing server licenses.

App renewals are expected to be prorated with an EOD of Feb 2, 2024 to match your server products' end of support date.

February 2, 2024

Support and bug fixes no longer available for server products. Apps and any renewals will be prorated to match this date.

Strongly recommend migrating to cloud or Data Center before the end of support.

Canadian Data Residency

Q2-Q3 2022

Leveraging AWS Canadian Data Centre in Montreal
